PROFESSIONAL SUMMARY

Proactive Full-Stack Developer with hands-on expertise building responsive web apps using React, TypeScript, Node.js, and SQL. Skilled in REST API design, database schemas, and modular UI components.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML, CSS
Frontend: React, Tailwind CSS, Redux, Next.js
Backend & DB: Node.js, Express, FastAPI, PostgreSQL, SQLite, MySQL
Developer Tools: Git, GitHub, Docker, Postman, Linux, VS Code

EDUCATION

Bachelor of Technology in Computer Science & Engineering 2021 – 2025
National Institute of Technology | GPA: 8.8 / 10.0
Coursework: Data Structures, Database Management Systems, Software Engineering, Web Technologies

PROJECTS & PRACTICAL EXPERIENCE

E-Commerce Multi-Vendor Marketplace Tech: React, Node.js, PostgreSQL

- Engineered responsive marketplace frontend using React and Tailwind CSS, reducing page load by 35%.
- Built 15+ REST API endpoints in Node.js Express with JWT authentication and PostgreSQL transactions.
- Implemented shopping cart and checkout pipeline handling 500+ daily mock transactions.

Student Academic & Attendance Portal Tech: Python, FastAPI, SQLite

- Created student attendance tracking system with automated calculation of attendance thresholds.
- Optimized SQL query response times by 40% using index constraints across 2,000+ student records.

CERTIFICATIONS & CREDENTIALS

- AWS Certified Cloud Practitioner (Amazon Web Services)
- Meta Front-End Developer Professional Certificate (Coursera)
- SQL Essential Training Certification (LinkedIn Learning)
